THE PRESENT OUTLOOK.

The strike is practically over. The alling off by President Debs is con ingent on certain "conditions," it is rue, and he talks about resuming the strike if these conditions are befused But everybody knows that this would not be possible. After the firm position taken by President Cleveland, and the approval of his action by all parties and by the whole country, it would be a vain task to seek to induce men to renew a struggle whose hopelessness has been demonstrated.

Debs is that the strikers who have not been charged with any criminal ac shall be taken back by the railroad companies without prejudice. There is probably justice in the position taken by some of the companies that they ar bound to retain in their services such men as accepted work on the roads when the strikes took place. But it is very well known that they need men and especially such as Are capable and experienced, and it is not wise for them to practise deception by pretending they have all the hands they want, nor is it good judgment to keep up their refusal to recognize or hold negotiations with any labor organization. A little frank and honest dealing between the roads and their employees would create a better feeling and make strikes less fre-

As a matter of fact, it is certain that if the troubles wholly cease now it will be a very short time before every good man is back at work.
